

MEETING PROGRAM GUIDE

#4: SERVICE

01

BEFORE THE MEETING

Officers should prepare for the meeting by bringing necessary supplies.

INTRODUCTION

02

This meeting will be focused on the third YLA pillar: **service**. Members will learn the importance of servitude through a chapter service project.

03

PRE-EDUCATION

YLA members have the opportunity to better their communities through service. There are many ways to serve the community, but this program will focus on environmental service.

Do the local parks need to be cleaned?
Is there trash lying on the sidewalks in town?

Assess your community's environmental needs, and pick a location or locations for members to clean up.

YLA MEMBERS FOR THE ENVIRONMENT

04

- Select a time and place to clean up local areas.
- Market your clean-up event through social media, school announcements, flyers, etc.
- Determine what items members will need to complete this project (gloves, tools to collect trash, trash bags, etc.) Talk to local community members to see if these items can be provided at the event.
- Split volunteers into groups to collect trash around the area.
- Continue the clean environment initiative by encouraging members to be environmentally conscious.
